MAYBE WE'RE HOMESICK:
This is written in Ohio. There's snow on the ground and we had to scrape the ice off the windshield of our car this morning. Yes, we know we are supposed to do our writing from Washington—and about things that happen there. But, here in Ohio we have found something that should interest everyone in Florida—and we want to get it off our chest.

What are we doing this far from Washington? That's easy. We're on a little speaking trip. During this two weeks we are scheduled for a dozen speeches, or talks, or personal appearances—whatever you want to call them.

Here's what we found in Ohio: an amazing interest when the word "Florida" is mentioned. (And I'm sure it's the same everywhere). We are always introduced as Win Pendleton, writer of the Washington See-Saw and head of the Florida Press Bureau in Washington. After our talk is over (talking about Washington) nearly everyone who speaks to us has something to say about Florida.

Such as, "I have an aunt in Sebring . . . or . . . we are leaving for Miami the day after Christmas . . . or . . . is it true that there's a hotel in Sarasota that gives a free room when the sun doesn't shine . . . or . . . my folks are living in St. Petersburg now . . . or . . . can you really live in Florida cheaper than up here . . . or . . . what are the chances of earning a living down there?"

The interest is astounding. Also amazing is the number of people who have been there. Some as tourists, some visiting their parents who now live there . . . some who were stationed there during the war.

These people want to know more about Florida. They have a scrap of information here and there but they want to know more. Here are potential customers for our great state. Future residents. And the things they don't know about our paradise is appalling.

How much does a home cost? Why so little? Taxes? Why so low? Is it true that you don't need many clothes? What about work? What part of the state is the best? And a thousand other questions.

And this thought stands out. If this much interest were shown in a new model automobile, what would the great motor companies of Detroit be doing about it? Would they let the customers sit and guess? Would they wait for them to go to Detroit to take a look? Most decidedly not. They would establish a few centrally located sales rooms around the country and begin to take orders.

Why doesn't Florida do that? Try one. Open it in Cleveland or Chicago. An office where people could come in and get the answers. Answers about industrial sites—home, buying, construction—travel information—cost of living—business opportunities—tax information—and see a few Cypress Gardens and Silver Springs movies. Then hold your hats, folks—here comes the boom!

WASHINGTON NEWSLETTER

By Sen. George Smathers

JACKSONVILLE — After three months of continuous travel, our fall tour of Florida is drawing near a close although we still have a few counties to reach as soon as the opportunity arises. The public response to our visits has been really heart warming . . . It spurs our Senator to renewed effort in pressing for constructive and sound legislation when Congress resumes in January.

Deep is my gratitude to all of you whom I have visited and addressed since the start of September. Florida's people are keenly aware of the issues and problems before Congress, and you have encouraged me immensely in the support you have expressed for the measures and causes for which we are working in Congress.

We haven't logged the mileage covered in the fall tour, but it's in the tens of thousands. Hundreds of thousands of people have heard my views on the state and national issues and my reports on the Congress, in one report or another from the courthouse square to the television screen. We have averaged three speeches a day and visited in hundreds of cities and towns from Pensacola to Key West. (My faithful and ambitious secretary, Juanita Thomas, would have sent us on to Dry Tortugas by rowboat, but burlesque Jim Powell said Peck and Smathers would have to do all the paddling.)

Now comes a new angle in consolation prizes, and it's the finest yet conceived. The Town Council of Bridgeport, Conn., voted a 10-day vacation in Florida to a losing candidate for councilman. The consolation prize is designed to make him feel better. What a consolation Florida is! This is a mobile phone. (2) There is rain in Loxahatchee. (3) Your barks are coming in loud and clear—over.

After that there was silence, and I felt I had been able to face another modern device. I shall take to my dogbed to see what the Bell people have in mind for lady dog columnists who wish to communicate with the outside world—at odd hours.

From where I sit... by Joe Marsh

New Light on an Old Subject

Mr. Evans from the Lighting Company gave an interesting talk at the Community Hall last night—on how farmers can cut electric bills. For those who missed it, here's a short recap.

Don't try to light up the cobwebs in the rafters. Use a reflector and a smaller bulb will probably do the job. Too many farmers use naked bulbs that waste 50% of the light.

Try using movable projector bulbs that beam light the way a searchlight does. A couple of these "spots" will often give you

better illumination than a gang of juice-wasting overhead lamps. From where I sit, it's amazing how often we misuse the things we have . . . like electricity. We also make a mistake if we misuse our right of personal choice—about which candidate to vote for, say, or whether beer or coffee makes the ideal mealtime drink—by trying to force our opinions on others. Respect for the other fellow's point of view should be our "guiding light."

FRIDAY, DECEMBER 16, 1955 GLADES OBSERVER — Page 9

LAKE HARBOR By the WSCS

One of the men from Ft. Lauderdale who fell overboard in Lake Okeechobee week before last had the misfortune to lose his teeth in the scramble. We certainly can sympathize with him, as we know it is no fun to gum your food.

Mr. and Mrs. Ira O'Conner have bought two lots in the Thomas Subdivision and are planning on building a new home in the near future.

Lake Harbor is slowly but surely getting home owners, which means permanent and stable residents.

Mrs. R. O. Plank took her son, Earl, to the Florida Crippled Children's Clinic that was held in Clewiston Friday. This clinic is held in the Glades twice a year for the convenience of the crippled children. Otherwise the parents would have to take them to Miami in addition to their regular trips.

Mrs. Mildred Larrick has received word that her sister, Helen Voerge, who has been working for the Cheyenne River Indian Mission in Cheyenne Agency, S.D. has been transferred to the same mission in Dupree, S.D.

The Women's Society of Christian Service has certainly been busy these past months as it has been responsible for the following work: painted the church fixtures, placing a jalousied door at the front of the church, putting new lights in

the church, painting the parsonage and putting jalousies on the porch. The women of this organization are certainly wide-awake and they deserve much credit. They work hard, but have a lot of fun fellowshiping as they go about the Master's work.

No invitations were issued on Barbara Plank's birthday last week, but friends dropped in to bring their good wishes and gifts, and partake of the ice cream and cake served by her mother.

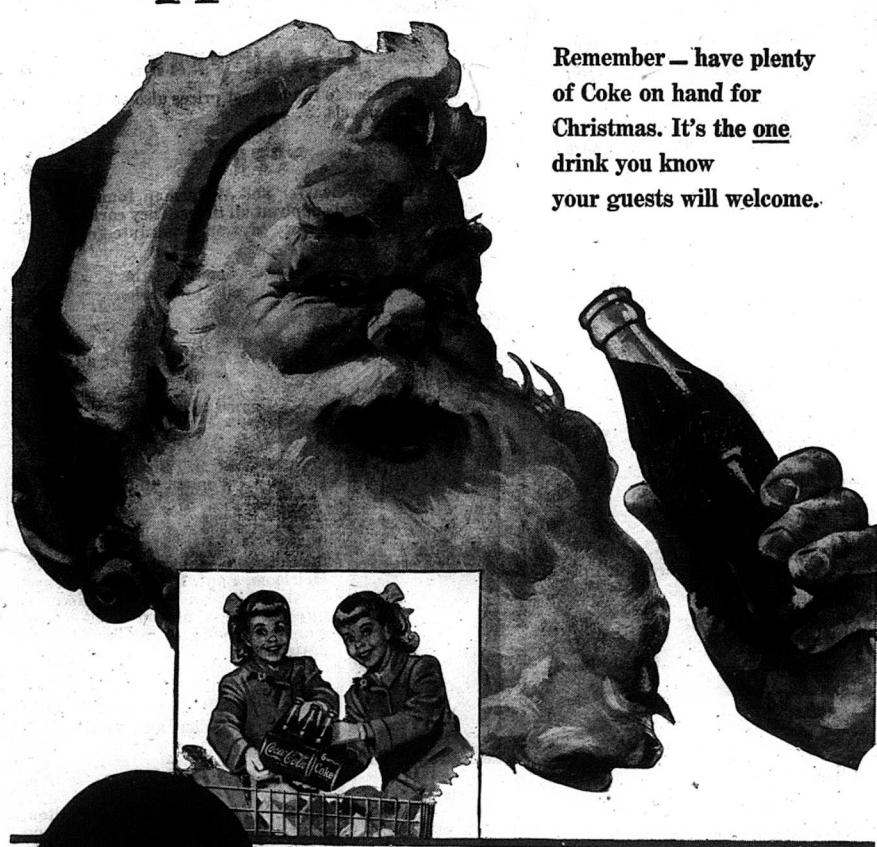

Mrs. Myrtle Mathis and Mrs. Opal McKinley went to West Palm Beach last Tuesday to see Santa Claus. From the way they spoke, the merchants must be doing a satisfactory business as they said the stores and sidewalks were crowded with shoppers.

Mr. and Mrs. Judd Grant, Arcadia, were over Friday to see her uncle, W. A. Johnson, in the Clewiston hospital, and to visit her mother, Mrs. J. S. Scogin, and family in Lake Harbor.

Both Mr. and Mrs. Grant have been quite ill recently and their many friends here were more than glad to see them up and about. Before moving to Arcadia, they were residents of Lake Harbor for some 20 odd years.

Mr. and Mrs. Joe Crouch took their daughter, Josephine, to see Dr. Sayad in West Palm Beach Monday. Josephine has been suffering quite a bit lately with ear trouble.
